July 2021

Dear Parents/Guardians,

Electronic networks, including the Internet, are a part of the District's instructional program and serve to promote educational excellence by facilitating resource sharing, innovation, and communication.

The District filters access to materials that may be defamatory, inaccurate, offensive, or otherwise inappropriate in the school setting. However, even with a filter, it is impossible to control or monitor all material and a user may discover inappropriate material. Ultimately, parents/guardians are responsible for setting and conveying the standards that their child should follow, and the School District respects each family's right to decide whether or not to authorize Internet access.

With this educational opportunity also comes responsibility. The use of inappropriate material or language, or violation of copyright laws, may result in the loss of privilege to use this resource. Remember that you are legally responsible for your child's actions. If you agree to allow your child to have a network account, mark yes on the permissions part of registration.

Sincerely,

  
Joshua Nichols  
Superintendent
